EMPLOYMENT

/EDUCATIONAL

Workshop Master, IT Art Environments, Aalto University, ARTS Infra, Finland (2025-Present) Supports IT art environments across the School of Arts, Design and Architecture, including systems administration, workshop software and equipment, and workstation environments for teaching and research. Work also includes development and testing of AI-based creative-computing environments.

University Teacher in Creative Coding, Aalto University, Department of Art and Media, Finland (2019-Present)

Teaches media arts courses focused on creative coding and STEAM education, including ARTS-A0639 - Programming for Visual Artists (responsible teacher, 2024-Present): course design, teaching, grading, and course-material development. Earlier courses include TAI-E1021 - (L01) Digitalisaatio ja oppiminen III, TAI-E1127 - Altergorithm - luovan ohjelmoinnin työpaja, and UWAS-C0046 - Creative Coding. Coordinated with Senior Lecturer Tomi Slotte Dufva.

Multimedia Instructor, Ministry of Education, DGRHE, Portugal (2015-2017) Instructed multimedia courses, including Design, Communication, and Audiovisuals; Multimedia Techniques, and ICT to vocational school students.

University Teacher in Media Arts, Instituto Politécnico de Bragança, Portugal (2011-2016) Taught and developed teaching syllabus for courses under the Multimedia and Game Design bachelor's degree programmes, including Semiótica (Semiotics), Imagem (Digital Image and Vector Editing), Efeitos Visuais (Video Visual FX), Vídeo (MoCap) (Video production with Motion Capture), Animação 2 (3D Animation), Motion Design, Pós-Produção (Video post-production), and Fotografia (Photography studio production).

/CONSULTANT & ACADEMIA

FinnCERES, Finland (2024-2026) Exhibition and spatial design, prop design and fabrication, project coordination, and visual communication for the FinnCERES area of Bioeconomy 2.0, part of Designs for a Cooler Planet 2024. Projects included Super Black Wood, BioOptic Fibers, Shimmering Wood, and the Self Sterilizing Face Mask, among others. In 2026, several of the fabricated props were remounted in a later FinnCERES presentation at Marsio. More info: [here](#)

Suomen Taidekasvatuksen Tutkimusseura, Finland (2024) Revamping association's wordpress website, redesigning visual identity, logo and structure, and utilizing no-code web development to optimize SEO and usability, plus integrating analytics tools. Website: [here](#)

Aalto University & Academy of Fine Arts Helsinki, Finland (2023-2024) Developed an online game as part of the project 'Taiteet ja digi,' a collaboration between Aalto University and the Academy of Fine Arts Helsinki inside of a consortium funded by Finnish Ministry of Education and Culture. This game was created based on peer discussions among art students. Project record: [here](#)

Aalto University, Finland (2023) Collaborated and consulted on the project 'Bodily Knowledges,' funded by the Kone Foundation and coordinated by Associate Professor Aaron Knochel from Pennsylvania State University and Senior Lecturer Tomi Slotte Dufva.

University of Helsinki, Indigenous Studies Department, Finland (2021-2023) Consulted, edited, and produced the documentary 'Geoglyphs in the Southern Amazonia,' coordinated by Associate Professor Pirjo Kristiina Virtanen.

Aalto University, Department of Electrical Engineering and Automation, Finland (2020) Consulted and developed media content in complex engineering concepts and communication for various audiences, such as researchers, industry professionals, and the general public under the Robotic Instruments research group. Example: <https://doi.org/10.1126/sciadv.abi7716>

Aalto University, Department of Film, Finland (06.2020) Essi Aittamaa's master's thesis opponent jury, 'Writing Characters in Artificial Intelligence: How Screenwriting Practices Benefit AI Personality Design'.

Aalto University, Department of Art and Media, Finland (05.2019) Co-organized and consulted in the seminar 'Appearances of the Political' for the AP.POL network, together with Senior Lecturer Max Ryynänen.

Aalto University, Department of Art and Media, Finland (02-05.2019) Contributed as a research assistant to reviewing academic materials, including papers, presentations, and lectures. Additionally, I assisted in coordinating departmental events, such as exhibitions, workshops, talks, and the preparation of doctoral defenses.

Aalto University, Department of Art and Media, Finland (01.2019) Evaluated applicants for the position of Professor of Visual Culture and Artistic Practices (tenure track).

/COMMUNITY BASED & OTHERS

Kallahden ja Meri-Rastila Nuorisotalo, City of Helsinki, Finland (2021-2022) As an art facilitator, engaged in creative projects and discussions with local communities, using art and media creation for social media platforms as a means of expression and social connections among youth participants.

Puistopolun peruskoulu, Lasten ja Nuorten Säätiö, Finland (2021) As a community artist, I consulted, coordinated activities with youth, and produced media content for the project 'Sanoita parempi maailma: Tulevaisuus miltä se näyttää' in collaboration with the rap-artist Rauhatäti (Hanna Yli-Tepsa).

Electronics and Programming Courses, Mehackit Oy, Finland (2019-2020) As a multimedia developer and art instructor, I designed and developed multimedia content for online STEAM tutorials that taught coding and circuit bending to youth in Finnish middle and vocational schools.

Online Magazine, Foreigner.fi, Finland (2019) Authored opinion articles on immigration, mental health, and integration for an immigrant-run online newspaper.

Keru Community Fridge, Kalliolan Setlementtitalo, Finland (2018-2020) Coordinated logistics and volunteers in a community fridge project. Co-developed an implementation manual funded by Tiina and Antti Herlinin säätiö.

Flying Duets, Schloss Bröllin, Germany (2017) Consulted and created media content for the community-based project 'Flying duets' in collaboration with youth dance students from Poland and Germany, coordinated by the visual artist Vassia Valkanioti and funded by Robert Bosch Stiftung.

Projecto Claquete E5G, Alto Comissariado para as Migrações, Portugal (2013-2015) Coordinated multimedia projects focused on social inclusion for immigrant and immigrant background communities, providing opportunities for young people to engage in creative activities and learn new skills through STEAM education. Project funded by the Portuguese Government and EU social development projects.
